

JAPS

Hold Strategic Points on the Yalu

RUSSIANS ADMIT THAT THE ENEMY IS ADVANCING

The Czar's Forces Sink a Jap Transport With Cargo.

A JAP VICTORY AGAIN REPORTED

Mikado's Men Control the Highway That Leads to Mukden—Musco- vites to Harass Enemy.

London, April 28.—The Chifu corre-
spondent of the Reuter-Telegram com-
pany wires today that the Japanese
have occupied Kulieng Cheng on the
right bank of the Yalu river to the
south of Antung.

Such a move on the part of the Jap-
anese would be highly important from
a strategical standpoint as it would
mean that they would have the Rus-
sian forces on the Yalu river hemmed
in on three sides. In front would be
the main force of Japanese, to the east
and northeast some of the Japanese
who are known to have crossed the
Yalu on Monday and Tuesday, and on
the west are the force now reported to
have occupied Kulieng Cheng.

JAP TRANSPORT SUNK.

St. Petersburg, April 28.—An official
dispatch received today reports that
on April 25, two Russian torpedo boats
blew up a Japanese transport, at Gen-
seng, Korea. The transport carried a
cargo of 400 tons of rice and military
stores, 1500 tons of coal and four
Hotchkiss guns. Seventeen officers, 20
men, 35 coolies and 65 sailors were cap-
tured. Other Japanese officers and
men resisting were sunk with the
transport.

St. Petersburg, April 28.—(Bulletin)
—It is now known that the vessel sunk
was the Kinshin Maru, a military
transport of 4,000 tons burden. The
official report of Admiral Yezzen does
not give the number of men drowned.
The vessel may have carried troops.
In that event several hundred lives
were lost.

JAP VICTORY REPORTED.

Nagasaki, April 28.—A report has
reached here that a great sea battle
has been fought to the north of Gen-
san between the Russian Vladivostok
squadron and a Japanese naval force
which has resulted in another victory
for the Japanese arms. The report is
lacking in details, and the naval au-
thorities here say that they have re-
ceived no word of the reported fight,
but the rumor is persistent.

The presumption here is that if an
engagement has been fought that Ad-
miral Kamemura's squadron is the one
which has fought it. Only the officials
know what vessels he has with him,
but it can safely be assumed that it
was strong enough to handle the Rus-
sian squadron.

ARMY CROSSES YALU.

St. Petersburg, April 28.—The fol-
lowing official statement is made:
"Before beginning the passage of
the Yalu the Japanese evidently com-
pleted the concentration of the armies
along the river, commanded by Gen-
erals Kuroki and Oku. Each army is
composed of three divisions and three
reserve brigades. The total force is
100,000. The Russians on the Man-
churian bank of the river are inferior
in strength.

"Having perfected the essential
preparations, the Japanese commenced
the passage of the river. The Jap-
anese front extended from Wiju as far
as Piek Tong, over 80 miles. We
faced the possibility that they would
cross at a score of places and all we
could hope was to harass and impede
the crossing, for every day gained en-
abled us to push our preparations and
bring up more men.

"There are only two instances in
history where an army was unable to
cross a river—that of Napoleon at

Aspern and that of Prince Eugene of
Savoy at Lech. Both failed because
of floods. The Yalu proved no excep-
tion to the established rule.

"We know that the Japanese crossed
at two points. Their first attempt to
force passage near Chand Cho Kow,
20 miles above Wiju, near Siaopous-
sikhe, on the Poussikhe, a tributary
of the Yalu, was successful. This is
important because a road leads from
Siaopousikhe northeast to Kwau
Tien, which commands one of the roads
to Mukden.

"It is evident that the Japanese de-
voted most of their attention to cross-
ing near Wiju. The river here is di-
vided into several channels by isl-
ands, the largest of which is Sama-
lindo. Above and below Wiju the
river was bridged at three points.

"Up the stream near Sindiaou, the
Japanese were watched by a small de-
tachment of Cossacks, but the enemy
was practically unopposed. At Turen-
chen, lower down, our outposts di-
rected a fire from a field piece so suc-
cessfully that they destroyed the moor-
ings and wrecked the pontoons. The
enemy was thrown into disorder and
suffered considerable loss. Still fur-
ther down the stream the Japanese
proceeded to make a third attempt to
cross.

"We do not think that the Jap-
anese will attempt to land at Takushan
or Tatung Kau now that they have
crossed the Yalu. The object of such
landings has been to cause a diversion
so as to enable the Japanese to cross
the river. Takushan is not a good
strategic point. The road leading
therefrom is bad and troops could only
be supplied with great difficulty. The
Russians will not show their hand at
this stage, but will continually harass
the enemy, choosing their own time
for a battle."

A military expert, who is particu-
larly impressed with the Japanese cross-
ing near Siaopousikhe, said that the
use of the road therefrom would
enable the enemy not only to march
upon Mukden, but to outflank the
Russian position at Feng Huan Cheng
and cut off any of General Rennen-
kamp's Cossacks, who may have gone
to join the attack on General San.

POINTED PISTOL AT HIS WIFE

Then to Reassure Her He Aimed at Himself

The Gun Went Off Accidentally and Tracy Tress, the Columbus Jew- eler, Soon Died.

Columbus, O., April 28.—Tracy Tress
aged 37, a leading jeweler, accidentally
killed himself at his home last night.
Tress was in his room with his wife
when they were called to dinner. Be-
fore going to the dining room he went
to his dresser drawer for a clean col-
lar. A revolver was in the drawer and
he took it out and pointed it at his
wife. She was very much frightened.
In order to reassure her he pointed the
revolver at himself, and a shot follow-
ed. A bullet entered his body close to
the heart. Tress lived long enough to
say that the shooting was wholly acci-
dental. He could not explain how he
happened to pull the trigger.

In Ohio Bishop's Honor.

Rome, April 28.—Dr. Nevin, rector
of the American church, gave a din-
ner this week in honor of Bishop
Leonard of Ohio. The guests included
Ambassador Meyer and Andrew D.
White, formerly United States ambas-
sador to Germany.

Wheeling, W. Va. April 28.—John T.
Manley, mayor of Benwood, W. Va., was
fatally assaulted this morning by Wm.
Jones, a mill worker. They had quar-
reled over a trivial matter. Jones was
carried to Ohio, and was arrested at
Pellaire.

New York April 28.—Former Speak-
er David B. Henderson, of Iowa, an-
nounced today that he was closing up
his affairs in this city, and would re-
turn to his Dubuque home shortly. It
is the general belief among the ex-
speaker's friends that he will seek po-
litical honors again.

Charlotte N. C., April 28.—P. B. Bur-
ton was killed and his son, D. M. Bur-
ton, seriously wounded, in a street
fight at Monetta, S. C., last night, by
T. M. Thraill and his son. Tho-
sitting was the result of an old feud.

GOLDEN KEY

WILL BE USED TO START THE ELECTRIC CURRENT

That Will Put the World's Fair Ma- chinery in Motion—President to Press Button Saturday.

St. Louis, Mo., April 28.—Nearly all
is completed now for the great open-
ing of the exposition Saturday. All
through the grounds there is the great-
est activity. Twenty-three thousand
workmen is the size of the army that
is making things in readiness. Most
of them work by the day, but even
at night the business men are about
the ground and buildings. Many of
the exhibitions will be running Sat-
urday. It is hoped to make the open-
ing day in the way of attendance, the
largest of any world's exhibitions ever
held. The estimated number of visi-
tors arriving today is about 45,000.

St. Louis, April 28.—All arrange-
ments have been perfected by the Pos-
tal Telegraph company for transmit-
ting to St. Louis the electric current to
be started by President Roosevelt at
the White House in Washington, which
will formally open the Louisi-
ana Purchase Exposition on April 30.
Two separate circuits will be used
to guard against possible interference
by storms in any particular section of
the country. The first will run from
Washington through Cumberland,
Baltimore, Pittsburgh and Indianapolis
to St. Louis, and the second from
Washington through Baltimore, Phila-
delphia, Harrisburg, Pittsburgh, Cleve-
land and Chicago to St. Louis.

The key to be used by President
Roosevelt to start the current on its
western journey has been made. It is
of gold, and after it has been used by
President Roosevelt it will be pre-
sented by the Postal Telegraph com-
pany to President D. R. Francis, of
the World's Fair.

The wires will be brought in the
underground conduits to the speaker's
stand at the base of the Louisiana
Purchase monument at the World's
Fair grounds. Mr. P. W. DeGraw will
handle the key at the St. Louis end
of the wires. Major B. F. Montgom-
ery, formerly executive secretary to
President McKinley, will handle the
key at Washington.

Both circuits will be used; conver-
sation will be conducted over one,
preparatory to sending the message
over the other.

When President Roosevelt touches
the key at Washington he will not only
start all the machinery on the
World's Fair grounds in motion, but
the current will also start the cas-
cades, and at the same time unfurl all
the flags on the several buildings.

The arrangements at the speakers'
stand in St. Louis will be in charge
of Thomas S. Cunningham, who rep-
resented the Postal Telegraph com-
pany at the World's Fair.

Solomon H. Mudge, superintendent
of the Postal company in St. Louis,
has been notified that a special key
to be used at the World's Fair has been
sent him.

Thirty thousand men are now rush-
ing work to complete the preparations
for the opening of the Exposition.
Cass Gilbert of New York, the
World's Fair architect, has resigned,
and brought suit for \$47,000 salary.
He complains of his treatment by the
managers.

Washington, April 28.—F. W. Jones,
second officer of the United States
army transport Sherman, makes some
very serious charges against that ser-
vice, alleging that the disasters its
ships have met have been due to
drunkenness among the men and the
officers' lack of discipline and general
incapacity. In a letter to Major C. A.
Devol, division superintendent of the
service, he says: "There have been
seven transports put ashore during
the past twelve months which would
ruin the richest of our merchant
steamship lines.

THE LAST DAY IN CONGRESS

President Goes to Capitol to Sign Bills.

Agreement to Conference Report on Panama Canal Bill—Hour of Ad- journment 2 p. m.

Washington, April 28.—An interested
crowd in the galleries and a small at-
tendance on the floor were the features
of the opening of today's last session
of the house. Matters of minor impor-
tance were disposed of with speed,
among the most important acts of the
day was the agreement to the confer-
ence report on the Panama canal bill,
which in its final shape, carries the
\$10,000,000 appropriation as desired by
the Senate and a proposition leaving
the control and management of the
zone to the President as desired by
the House.

When the Senate met today the con-
ference report on the river and harbor
bill was agreed to without objection.
Mr. Allison, chairman of the appropri-
ations committee, presented a tabulated
statement of the appropriations of Con-
gress for the year ending July 1, 1905,
being an excess of the appropriations
for the current year of \$28,000,000. The
conference report on the Isthmus Canal
civil government bill was agreed to
without discussion. The House resolu-
tion fixing the time of adjournment of
Congress at 2 o'clock today was agreed
to.

The seat of the executive branch of
the government was temporarily re-
moved this morning from the White
House to the capitol, as is the custom
during the closing hours of each ses-
sion of Congress, in order to expedite
the signing of bills and other executive
business that must be conducted before
adjournment.

The House at 11:15 today without
opposition adopted a resolution provid-
ing for the adjournment of Congress
at 2 o'clock this afternoon.

Washington, April 28.—On motion
of Mr. Payne a resolution was adopted
directing the Speaker to appoint a
committee to call on the President and
inform him that the House was ready
to adjourn unless he has any matters
of importance upon which he desires
action. Representatives Payne of
New York and Hennenway, Indiana,
Republicans, and Williams, of Missis-
sippi, Democrat, were named on the
committee. The Senate adjourned at
2 p. m., the House at 2:10 this after-
noon.

FAIR CASE

COMPROMISE HAS BEEN MADE BY THE PARTIES.

The Nelsons Accept Quarter of a Mil- lion Dollars in Settlement of All Their Claims

New York, April 28.—As a climax to
the famous Fair will contest between
the Vanderbilt-Oelrichs claimants and
Hannah and Abraham Nelson, repre-
senting the heirs of Caroline Fair, nee
Smith, who, with her husband, Charles
L. Fair, was killed in an automobile
accident in France two years ago, it
was revealed that the Nelsons have ac-
cepted \$250,000 cash as a compromise
to their claims, and that the sensation-
al battle for millions is ended.

Besides this sum, the Nelsons, it was
announced, will eventually receive ap-
proximately \$100,000 additional. As
they received \$425,000 in September,
1902, their total inheritance amounts
to nearly \$775,000, exclusive of personal
property left by Caroline Fair which
is estimated at between \$50,000 and
\$60,000.

The final settlement is in accord-
ance with an iron-bound agreement
which the Nelsons signed three weeks
ago not to offer any further obstacle to
a complete and final settlement. Owing
to a remarkable effort on both sides to
keep secret the final terms of settle-
ment the facts did not leak out until
today.

Coincident with the announcement it
was said that Wm. K. Vanderbilt, Jr.,
is now hurrying across the continent to
join his wife, Virginia Vanderbilt, who
with Mrs. Herman Oelrichs were rival
claimants with the Nelsons to the Chas.
L. Fair millions.

According to a mutual friend of the
principals, in this city, who is inti-
mately acquainted with the situation,
the estate amounts to only \$1,000,000.
According to this same authority the
James G. Fair millions will be distrib-
uted together with the Charles L. Fair
estate in San Francisco within two
weeks. Mrs. Oelrichs will leave for
San Francisco this week to join her sis-
ter and brother-in-law, who have pre-
ceded her.

By the terms of the settlement, it is
said, Mrs. Vanderbilt and Mrs. Oelrichs
will receive about \$2,000,000 each from
the estate of their brother. They will
at the same time receive between them
some \$8,000,000 as the portion of the
James G. Fair estate, which would
have gone to their brother had he
lived.

DAUGHTER

Was Murdered for Insurance Money— Terrible Charge Made Against Mrs. DeWitt

Binghamton, N. Y., April 28.—Mrs.
Henrietta DeWitt has been arrested at
Sidney, Delaware county, charged with
murder in the first degree, in causing
the death of her 17 year old daughter,
Florence Mackintosh, by poisoning her
with arsenic.

Until yesterday Mrs. DeWitt has al-
ways called the girl her stepdaughter.
Then she admitted that Florence was
her only child. The evidence before
the coroner's jury pointed strongly to-
ward the mother having caused the
girl's death to obtain \$2,000 life insur-
ance.

Mrs. DeWitt when arraigned before
the coroner, was apparently the most
unconcerned person in the room, tak-
ing her seat carelessly and picking up
a paper to read about her case. She
waived examination and was held for
the grand jury.

SWEETHEART

Of Her Youth Will be Married by Miss Stella Elkins, an Heiress to \$20,000,000.

Philadelphia, April 28.—Heiress to
\$20,000,000, Miss Stella Elkins, daugh-
ter of George W. Elkins and grand-
daughter of the late financier Wm. L.
Elkins, is to wed George S. Tyler, who
is himself heir to millions. Mr. Tyler
is a lawyer, and is well known in New
York society circles as in Philadel-
phia.

Miss Elkins has not yet been formal-
ly introduced to society. She was to
have been last year, but the death of

her grandfather prevented it. Then
plans were made for her debut this
coming season. Her marriage will pre-
vent this, and when she does join the
social world it will be as a matron.

By the wedding a curious tangle in
relationship will be effected. Sydney E.
Tyler is the father of the prospective
groom. He took as his second wife Ida
Elkins, daughter of the late William L.
George Tyler's marriage with Miss El-
kins will convert his stepmother into
his aunt.

Both the parties were boy and girl
sweethearts. Miss Elkins passed the
greater part of the last winter abroad
while Mr. Tyler was studying law.

NATIONAL

League is Trying to Formulate Law For Changing Mode of City Nominations.

Chicago, April 28.—The National Mu-
nicipal League today is trying to formu-
late a new nominating law for city
governments. Chairman Deming of
New York, said: "Outside the orient
there are few places where a more
complete example of undemocratic
government can be found than in the
cities of the United States. All great
American cities are now governed by
boss dictated candidates." He said
that now it is almost impossible for a
candidate to get his name on a ticket
unless he belongs to one or the other
of the great parties. He would fix it
so that any candidate with a large fol-
lowing could be voted for.

Big Battle Fought.

Saint Thomas, D. W. I., April 28.—In-
formation of a big battle between the
government and Jimenez forces was re-
ceived from the officers of a German
steamer which arrived last night from
Monte Cristi, Santo Domingo. The bat-
tle is said to have taken place near
Santiago Delos Caballeros, and
Jimenez forces were victorious. The
government forces lost 41 killed and 16
wounded. Three generals Cabrera, Ar-
rojo and Tuna, lost their lives. Twelve
of the Jimenez force were killed.

SHAW

When Governor of Iowa Paroled Shercliffe,

THE ROBBER DESCRIBED BY PINKERTON MEN

As the Worst Criminal in the United States.

A BIG FUND OF CASH RAISED

For Release of the Man in Return for Votes—A Very Remarkable Con- fession of Shercliffe

Des Moines, Iowa, April 28.—The
story that Secretary Shaw, when Gov-
ernor of Iowa, was induced to parole
one of the worst criminals in the
United States over the protest of the
trial judge and prosecuting Attorney
at the behest of politicians, some of
whom are alleged with great particu-
larity to have received a portion of
the \$15,000 raised to obtain his release,
is related in the confession of that
criminal and the publication of the of-
ficial records in the Governor's of-
fice.

According to the confession Gov-
ernors Jackson and Drake had turned
down the application and Governor
Shaw had twice refused to pardon
Frank Shercliff, convicted of robbing
William Pollock, a diamond merchant,
of stones valued at \$20,000 after
sandbagging and shooting him on a
limited train in the presence of pass-
engers, stopping the train and escap-
ing. The parole was ultimately granted
on receipt of a letter from the late
N. M. Hubbard, who brought out
Shaw as a candidate for Governor and
who was then the recognized dictator
of Iowa politics.

Just prior to issuing the parole
Governor Shaw had been deluged
with letters of protest from Judge and
attorneys and from William A. Pink-
erton, head of the Pinkerton Detec-
tive Agency, who declared that in his
experience of more than 30 years he
had never known a criminal whom he
regarded as so desperate or so dan-
gerous as Shercliffe.

Pinkerton recited the numerous rob-
beries perpetrated by Shercliffe, that
he had been three times sent to peni-
tentiaries, and that in this particular
case it was conceded that he was guilty.
Mr. Pinkerton added: "He is undoubtedly
the worst criminal in the United
States. I know of at least two Iowa
Senators who are interested in his re-
lease, and know that there is a purse
of \$5,000 awaiting the man or men who
get him out of the penitentiary."

Again Pinkerton wrote: "It is also
known that a well-known pawnbroker
in Omaha is putting up the money
that is being used for Shercliffe's de-
fense.

In the letter of N. M. Hubbard, writ-
ten to Governor Shaw September 15,
1901, a week before the parole was is-
sued, Hubbard says:

"Cedar Rapids, September 15, 1900.
"My Dear Governor—When I was in
Washington, last winter, I became ac-
quainted with David H. Mercer, Con-
gressman from the Fremont district in
Nebraska. He helped pass our bill
for settlement of the Sioux City and
Pacific indebtedness. As soon as the
bill was passed, 'Dave' came to me
and asked for the parole of Frank
Shercliffe, who is now in the peniten-
tiary for robbing somebody on the
Sioux City and Pacific road. My son
and Mr. Dawley, my law partners, I
understand, have written urging you
not to pardon or parole him. 'Dave'
doesn't ask that he be pardoned, but
paroled in good behavior. He told me
that the Judge who tried him, and
the attorney who prosecuted him, have
made a request to you, or will make
such request, to parole him. I sup-
pose he is guilty of the crime charged,
but 'Dave' says he has been punished
pretty well now, and that it will be
worth 300 or 400 votes to him from
the relatives of Shercliffe if he can be

"I suffered with chills and fever and my skin was growing very yellow. The slightest draft would be enough to cause hot flushes or a quick chill. We thought it was malaria, but can never yet explain how I contracted it.

"I always had a draggy feeling, and would get up in the morning feeling dull and tired, and would be tired all day.

"I do not feel any more fatigued, and I am cheerful all day long. I get through my work with satisfaction and work faster and better. The chills and fever are completely cured. This is just the time of the year when I used to have them worst, and I have not had a single chill. LATE SPRING

HAS PLAYED HAVOC WITH THE FARMERS' WORK.

Wheat Crop in Northwestern Ohio Killed—Condition of Crops as Shown in the Report

The weekly crop, bulletin of the weather bureau shows that the late spring and the cold weather which has prevailed has played havoc with the winter seedling in many places. On the 20th of the month the temperature was 22 degrees at Newark, lower than ever before recorded so late in the month. While spring work on the farms has been greatly retarded by the rains and cold weather, that is not the worst condition. The report says:

"The freezing and thawing of the first of the week injured wheat very much. Many correspondents, in the northwestern part of the state especially, report that the crop is practically all killed. Many fields will be plowed up and seeded to oats, barley, or other crops. The weather of the last of the week will undoubtedly cause a marked improvement in the fields that are not entirely dead, but the present outlook for the wheat crop must be far below the average."

Apples and grapes are reported generally in good condition, but pears, peaches, cherries, plums and berry canes have been more or less winter killed. Young clover has been much injured by freezing.

In this section of the state clover is badly hurt, some potatoes planted, some oats sown, first of the week unfavorable for wheat but has improved last few days, farm work pushed.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

MAD DOG

CREATED MUCH EXCITEMENT DURING PAST WEEK

At Beech Woods, Near Thornville Having Bitten Dogs, Horses and Other Valuable Stock

Beech Woods, April 28.—Considerable excitement has prevailed here during the past week over the actions of a mad dog. The dog which belonged to Charles Morrow, bit his fine driving horse several days ago, and on Monday the horse developed a genuine case of hydrophobia. Six dogs have also developed the disease. The horse foamed at the mouth and gnawed its front legs to a jelly. The dogs ran frantically through the streets, snapping at pedestrians and everything that they met. A valuable dog belonging to the late George Forrester had to be killed. The matter is being looked after by the authorities and every precaution is being taken against the dread disease. The horse and dogs were killed by Mr. Samuel Hyde, and their carcasses turned over to the Lancaster Fertilizer company.

BARNUM & BAILEY

The American Circus, Here May 31, a Success Abroad—A Few Interesting Facts.

All the papers of Europe, without an exception, have praised the wonderful character of the Barnum & Bailey Greatest Show on Earth. What they have remarked would fill a book of ten thousand pages of small print. In the United States the reference has been repeatedly made to the Barnum & Bailey Show on the congressional and legislative floors of the country, while hundreds of documents may be found on file in the archives at Washington pertaining to certain matters in which this government was trying to assist the managers of this great American institution. This statement cannot be truthfully made regarding any other circus enterprise.

To transport the vast material, animals and property of the big Barnum & Bailey institution which is to appear in Newark Tuesday, May 31st, nearly 100 cars are required, each 60 feet long. These are made up into five trains of about twenty cars each, nearly 2,000 feet long, so that all of the trains if made into one would be over a mile in length.

Another novel feature are the tents. Very few persons can form an idea of their magnitude and capacity. When it is stated that the largest building in New York, Madison Square Garden, does not seat one-half as many people as the tent under which the performances will be given in this city May 31st, one begins to realize its enormous size. Nearly fifteen thousand persons can be comfortably seated in the main canvas, which has a foot rest for every seat. The menagerie tent is 350 feet long.

Arranged in the main tent are three equestrian rings, three stages, a race track and an aerial enclave, and it is in and upon these the wonderful performances take place. In the menagerie pavilion are other stages, where the huge collection of freaks are exhibited without extra charge, and where also are the handsome cages of wild beasts, the elephants, baby elephant, herd of giraffes, and other objects of interest. Then there are other tents with canvas stalls, canvas managers, etc., for the five hundred horses, and still more tents for dressing rooms, dining rooms, barbers, blacksmiths and others, the whole covering an area of acres. To see all of these tents erected in the short space of two hours is indeed a wonderful sight, and but another instance of the remarkable methods and stupendous resources of this truly magnificent show. The vast amount of material carried, the great number of employees of all kinds the army of performers, the commissary department—in fact, all the various parts of the big affair when combined make such a colossal gigantic show that few can possibly comprehend it. It never divides and is truthfully advertised.

DR. BASHFORD

President of Ohio Wesleyan Will be Placed in Nomination for Bishopric at Los Angeles.

Delaware, O., April 28.—A Delaware party composed of the following persons left for Los Angeles, Cal., to attend the general conference of the Methodist Episcopal church which assembles there on May 4: Dr. and Mrs. James W. Bashford, Mrs. Cyrus R. Austin, Prof. W. Whitlock and Dr. and Mrs. J. Fitzwater.

The name of Dr. Bashford at present head of Ohio Wesleyan university here, will undoubtedly be placed in nomination for a bishopric. His friends in Delaware and this portion of the state would not be surprised to see him elected to this high honor.

THE RAILWAYS

ENGINEER HARRY JOHNS STRUCK IN THE EYE.

Splendid Showing Made by the Santa Fe—Fast Run on Pan Handle. Local Railway Budget.

Engineer Harry Johns while making a trip over the Midland division of the B. & O. on Wednesday night, met with a very painful injury, caused by a pin from the wrist-plate flying off and striking one of his eyes. He was brought to Newark and taken to the office of Dr. C. A. Foster, in the Avalon building on West Main street, where the injury was attended to. At first it was thought that the eye had been seriously injured, but an examination showed that it had only been badly bruised.

A Splendid Showing. The Atchison, Topeka and Santa Fe makes a splendid showing for the month of March. The gross earnings of the company for the month show an increase of \$271,138 and the net earnings an increase of \$241,495 over those for the corresponding month of last year. From July 1 last to March 31 the gross earnings show an increase of \$4,958,426 and the net earnings an increase of \$1,926,909 over those for the corresponding period of the company's preceding fiscal year.

A Fast Run.

Cincinnati, April 28.—The fastest run ever made on the Richmond division of the Pan Handle was made last Sunday by the special train carrying the Maud Adams Little Minister company. The train left here at 12:15 a. m., and the run of 183 miles to Logansport, Ind., the end of the Richmond division, was made in exactly four hours, not deducting time for stops or slow-downs. The run of 500 miles from here to Chicago was made in exactly seven hours.

To Extend Sunday Rates.

There is a movement on foot among passenger officials to make more general reduced rates once a week and give a longer limit. It is proposed to make one fare for the round trip good going on trains Saturday afternoon and returning Sunday or Monday. It is argued that this would partially solve the Sunday excursion problem.

Must Cut the Crossings.

Trainmaster J. P. Fitzgerald of the B. & O. at Newark has issued an order which will be very pleasing to the general traveling public. There is no one who goes frequently to the C. & M. V. depot, but who has been annoyed at times by the freight trains which often block the Market street crossing. Many of the trains are so long that it is impossible to walk around the end and they frequently stand for a considerable length of time directly across the street. Many complaints have been made and Mr. Fitzgerald has issued an order to take effect at once that all freight trains must be cut at the Market street crossing whenever the trains stop to do work if there are people or wagons waiting.—Zanesville Signal.

Engines at the Fair.

Among the railroad exhibits to be seen at the World's Fair will be a number of the large type locomotives of the B. & O. railroad. Among them will be engine 2346. This is one of the largest locomotives ever constructed for the B. & O. company and was built by the Rogers Locomotive company. It arrived in Newark at 11:29 o'clock this morning, and will be taken to St. Louis over the B. & O. S. W. Its total weight when in service is 415,000 pounds. It is a beauty.

Railroad Notes.

Edward Gardner, who for 31 years was a conductor on the Pan Handle died on Wednesday at his home in Logansport, Ind. He was in the main guard of the Cumberland during the civil war.

C. S. Kinneer has been appointed traveling passenger agent of the B. & O. S. W., headquarters at Lynchburg, Va. Wm. Pearson has been appointed freight and passenger agent of the road at the exposition.

Brakeman R. L. Mills had the misfortune to meet with an accident and sustained injuries which will incapacitate him for work for a few days.

Brakeman Shaw has been marked up for service after a short absence. Brakeman Chester is working again after having been off duty for a few days.

Brakeman R. H. Willey is confined to his home with sickness. B. & O. engine 1910 has been turned

out of the shops after having undergone some needed repairs.

Conductors S. W. Moore, Saver, Donovan, Swinehart and E. E. Moore have returned to work after a short absence. Brakeman D. E. Bland has been given a leave of absence for a few days.

Conductor Donson is unable to work on account of injuries received while in the discharge of his duty.

Brakeman J. R. Weaver is off on a leave of absence.

Brakeman W. P. Elder who has been laying off for a few trips, has been marked up for work.

FIRST CINCINNATI EXCURSION.

On Sunday, May 1, the B. & O. R. R. will sell excursion tickets Newark to Cincinnati. Fare for the round trip, \$2.50. Special train will leave Newark at 5:35 a. m., returning, will leave Cincinnati at 7 p. m.

AN ENTIRELY NEW GROWTH

"My hair was getting very thin. Every morning I would comb out great handfuls of it. Nothing that I used stopped its falling out or helped it until, by the advice of a friend, I tried Rexall "93" Hair Tonic. From the very beginning the tonic was beneficial. Not only has it stopped my hair from falling, but it has produced an entirely new growth. My hair is now soft and glossy, where before it was harsh, brittle and dull. I shall recommend Rexall "93" Hair Tonic to all my friends."—MILDRED SEELEY, 148 East 27th Street, New York City.

CONSTIPATION

Is the first step on the road to disease. In its worst form it is a fearful disorder which destroys hope and brings despair and suffering to its victims. What is there in life for anyone afflicted with chronic constipation? Like a vampire it festens on the system, poisons the blood, deranges the liver and saps the strength and vitality of the sufferer. Pleasures and rational enjoyments are not for him. His life is dragged out in a miserable round of despondent days and sleepless nights. Constipation if not checked in time results in Piles, Blood Poison, Rheumatism, Bright's Disease, Apoplexy and Heart Disease. Are you a sufferer from constipation? Check it! There is a way. Thousands have found it in

Vitona

"The New Way to Health"

Vitona prevents and cures constipation. It is the only sure and scientific remedy for this trouble, because it acts directly on the blood, keeping it pure and wholesome. The condition of the bowels, stomach and digestive system depends upon the state of the blood. Vitona contains a certain ingredient discovered by a German chemist, which destroys the disease germs and keeps the blood in a healthy and active state. It is the action of this chemical that gives Vitona its peculiar power in the curing of constipation, whether mild or chronic. Get a bottle today. Price \$1.00. Written guarantee given with each bottle.

HOW TO GAIN FLESH

The life of food is the fat within it—the more fat the more real benefit from the food; that is why cod liver oil is a powerful builder of flesh.

Scott's Emulsion of pure cod liver oil solves the problem of how to take cod liver oil. That is one reason why doctors have been prescribing Scott's Emulsion for all wasting diseases, coughs, colds and bronchitis for almost thirty years.

One of the inducements offered in order to substitute something else for Scott's Emulsion is the matter of cost. You save a few cents at the expense of your health. Scott's Emulsion costs more because it does more and does it better than the substitutes.

We send a sample free upon request.

Robbed the Grave.
A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Hall's drug store.

Why is it that a whole state sighs with relief every time a legislature adjourns? Do the people want less law, and hence less lawlessness?

Russia must be getting vexed. Her navy destroyed a small Japanese merchant vessel. Rowboats had better keep close to shore.

There is one custom that marks the closing day of the legislature that should be stamped out, and that is the petty thievery. It may be all fun but the great tax paying public look with suspicion on the looting of the legislative hall. When \$10.00 brass cuspidors are stolen, chairs, desks, typewriters (the machines) and everything movable, it looks more like organized piracy than fun or an annual frolic. The people take a different view of this stealing game than the legislators think and the practice should be stopped for the honor of Ohio.

State Issues in the Ohio Platform.

(Columbus Citizen.)

The Democrats of Ohio and all other states at the November election will stand on the national platform so far as national issues are concerned, and not on any state platform. The declaration of principles made at St. Louis will supersede all platforms of state conventions with respect to national issues in the coming campaign.

Under these circumstances, in states in which the Democracy has vital state issues at stake, as is the case in Ohio, it will be well for the party to pass the discussion of national questions in detail up to the national convention and bear down upon such state issues in state platforms as demand the attention of the people and are calculated to win support from all lovers of good government. In Ohio these state issues are more numerous than ever before and the Democratic party is in an admirable position to take advantage of them for the general welfare. It is true that the Democrats of Ohio have no national issues to fear, but are prepared to meet the Republicans on any ground, quite as unreservedly as their brethren in any state of the Union. But inasmuch as the test of Democracy on national questions is to be laid down in the national convention, it is the plain duty of Ohio Democrats in their state convention to take advantage of the abundant local issues that now confront the people and emphasize them as it would be impossible to do in a platform covering all details of state and national politics.

IT'S IMPOSSIBLE

To Disprove Facts.—It is Decidedly Easy to Verify Newark Opinion.

Nothing by way of introduction could be added to the experience and opinions given below, which could increase their value. Newark people can be safely left to draw their own conclusions based on such convincing evidence as this citizen offers. What is there lacking in evidence like this to satisfy a dyed-in-the-wool doubting Thomas?

Mr. F. Lisey of Lisey & Fink commission merchants, says:—"I was distressed and annoyed by a pain in my back just across the kidneys. It was rendered more acute every time I was called on to stoop or lift anything. Treatment at different times failed to afford me relief and at last I stopped using medicine and went and got a package of Doan's Kidney Pills at Crayton's drug store. Their use proved effectual and my back has remained sound ever since I took the treatment. I have as a natural result no hesitancy in allowing my name to be used in recommending them."

OCEAN LINER

Was Held Until the Frantic Woman Collected Her Wits.

New York, April 28.—Mrs. Mary Schwab, of Newark, was at the North German Lloyd pier in Hoboken to say good bye to some of her friends who were sailing by the Kaiser Wilhelm der Grosse.

The "all ashore" gang began to clang and Mrs. Schwab began to make frantic search for her three year old daughter. The word went around that a three year old girl was missing, and as the captain did not wish to carry the infant to sea nor yet have his ship delayed, stewards went sent flying everywhere looking for the child. Nowhere could she be found, and more perplexing still, no one had seen anything of her.

Then when fear was growing that the child had fallen overboard and had been drowned, the flustered mother suddenly ceased her lamentations, her face brightened, and, with a great sigh of relief, she said: "Oh, I remember now I left her at home."

IMMORTAL J. N.

Doesn't Ride on Trains Without Paying as He Did For Years—Must Now Pay or Walk.

Columbus, April 28.—"No, the 'Immortal J. N.' doesn't ride free on trains any longer," remarked an attaché of the Union station last evening, as the famous traveler stood in a corner of the waiting room jabbering incoherently to a crowd of the curious, many of whom had never seen him before.

"J. N." had just come in from Chillicothe. He said he would stay over "with a friend" for a time.

When the attaché was asked how the old man managed to get through the gates, he said he usually bought a ticket to the first stop, sometimes to West Broad street on the Hoehling Valley or to Alum Creek on the Baltimore and Ohio and Ohio.

His plan is to try to stay on the train after passing the first stop, but, according to the attaché, the conductors no longer carry him unless some one in the crowd pays his way.

"J. N." always complains that he's lost his life pass, but this protest is not heeded unless his fare is forthcoming.

STUDIED

The Third Rail While He Begged and McKenzie Has Found a Device to Protect It.

New York, April 28.—Alexander McKenzie, alias "Scotch Aleck," alias "Jim McKenna," alias "John Henderson," formerly of the British army, an electric engineer and once a friend of Thomas A. Edison, may soon abandon the occupation of a professional beggar. Unless the opinions of several experts are wrong he has invented a successful device for the protection of the third rail on the elevated railroad tracks and will receive a prize of \$100,000 offered by the interborough company for that achievement.

So sanguine are the members of the charity organization society of the success of McKenzie's invention that the matter has been placed in the hands of Robert Grier Monroe, a patent solicitor, and a practical test of the device will be made in Schenectady as soon as the patent is perfected in Washington.

On the police records McKenzie is classified as a "flopper" or "finger," names given to a harmless class of mendicants, usually cripples, who sit silently in the street or wherever the crowds are passing and hold out their hats or a tin box with mute appeal for aid. For several years McKenzie has been a conspicuous figure on the platforms of the elevated stations. He has but one leg and always sat on the floor, with his crutches lying in his lap and his hat stretched out for coins. There he studied the third rail and his patent is the result.

Womanly Health, Strength and Beauty

Strength and beauty in woman depend entirely upon her health. A woman cannot look her best unless she has a healthy system. It is not until she has a healthy system that she can have the strength and beauty which are the result of a healthy system.

AUNT DINAH'S OLD VIRGINIA Herb Tea

Makes Strong and Beautiful Women.

It is a most pleasant and effective remedy for the troubles which cause so much suffering among women the world over. It relieves immediately and eventually cures all cases of disordered menstruation, female weakness, prostration, chronic constipation, sick head aches, nervousness and sleeplessness. These are the ailments which deprive a woman of her youth and beauty and which are the result of a disordered system. The use of the Herb Tea will enable her to retain these qualities. It clears the complexion and improves the form. A cupful at bed time will give a woman health and strength.

Chicago, April 28, 1904.

Gentlemen:—My wife has been suffering with female weakness and nervousness which has been attributed to her being unable to sleep. After trying all sorts of medicine and the usual treatment, she was unable to get any relief. She was then given a box of Aunt Dinah's Old Virginia Herb Tea and after taking it for a few days she was able to sleep and her health was restored. She is now a strong and beautiful woman and is able to do all her household work. I am sure that this tea will do the same for all women who are afflicted with these troubles. I am, Sir, very respectfully,
Yours truly,

TREE CLIMBING

Jack Newhardt Does Much of This Work While Training for Coming Wrestling Match.

Jack Newhardt the well known local welterweight wrestler, who is to meet C. F. Gugel of Columbus at the Music Hall next Saturday night has his own ideas of training and prepares himself for his contests according to methods which commend themselves to him. He believes that for a wrestler there is nothing so beneficial as to practice wrestling, and he has several big, husky fellows whom he pulls and tugs around the mat every day. He is a great believer in out of doors work for a wrestler, and is convinced that the best training he can get for muscle building as well as to perfect his wind is tree climbing. This has been used by him during his training for the coming bout, and during the week a visitor at Idlewild park might have seen the finely muscled athlete, after several miles running around the track, shin up one of the prehistoric oaks, that fringe the half mile track. He is an adept at tree climbing and to watch him climb at tree makes one think of a daring stoic climber.

The sale of seats for the coming Newhardt-Gugel bout would indicate that a large crowd will attend next Saturday night.

Walter Dye, son of Chief of Police Dye of Marietta, pleaded guilty to selling liquor in Mackling, a local option town in Washington county, and was fined \$400.

BUCKEYE LAKE PARK

Manager Harris Fixes May 15th as the Date for
Opening—Idlewild Opening Not Announced
But Mr. Harris Tells of Some Strong
Amusement Features Secured.

Manager Will D. Harris of Buckeye
Lake and Idlewild Parks, has been
badly handicapped by the adverse
weather conditions in getting the two
resorts ready for the summer season,
but in spite of this fact, Mr. Harris
has been making remarkable headway,
and he announced Thursday that the
lake resort would open on Sunday,
May 15, the opening of the Newark
park not having, as yet, been an-
nounced.

For Idlewild during the coming
summer, Manager Harris has made
preparations to give the patrons of
the Casino, a most rare amusement
season, and in order to do this has
been to a great expense, and has again
shown his managerial genius. His
idea during the winter, was to com-
bine Idlewild with several other
parks, distributed throughout central
Ohio, which from a geographical
standpoint would have been advan-
tageous to him from the standpoint
of a manager, looking to make the
most revenue from his park. But
another motive actuated him, and
that was to get the best in the market
for the patrons of his park, cost being
a secondary consideration in deter-
mining the course to be pursued.

After an exhaustive survey of the
opportunities for getting the most ap-
proved summer amusements, Mr. Har-
ris allied himself with Matt Kusell,
of New Albany, Ind., one of the most
widely known theatrical managers in
the west, and the Kusell Warm
Weather Circuit was organized,
which includes eight parks in the fol-

lowing cities: Champaign, Ill., Kan-
kakee, Ill., New Albany, Ind., Marion,
Ill., Keokuk Iowa, Paducah, Ky., De-
catur, Ill., and Newark.

This is a very strong circuit of
cities and the management will em-
ploy none but the very best entertain-
ers, whether vaudeville, stock or
operatic companies.

The season will begin with stock or
opera companies in each one of the
parks for two weeks, at the end of
which time a shift will be made, and
each city will have a change of pro-
gram. In all the parks the bill will
be changed three times a week, so
that there will be no monotony during
the season.

An illustration of the idea may be
made specific. Should a stock com-
pany be playing for two weeks in
drama at Idlewild, and at the same
time a company at Paducah was put-
ting on two weeks of comic opera, at
the end of that period, the opera com-
pany would come to Newark and the
dramatic company go to Paducah, and
the same shifts would be made at the
other parks. In this way Idlewild
patrons will have a variety of amuse-
ment throughout the summer.

At each place there is to be three
changes of bill weekly.

According to Manager Harris the
performances at Idlewild will be
over by 10:15 o'clock every night.
Vaudeville sketches will be introduced
between the acts so that there will
be no tedious waits, and those who
enjoy this form of amusement may
also have their taste gratified.

FIRST ARTIFICIAL STONE

Manufactured at New West End Mill—The Entire
Plant Will be in Operation Soon—The Com-
pany Will Employ Twenty-five Men
at the Start.

The first artificial stone block was
made at the mill of the Newark Arti-
ficial Stone and Plaster company on
Wednesday afternoon. Only two min-
utes was consumed in making the
first large stone, which is far cheaper
than stone or brick and more lasting
than limestone, and so closely resem-
bling natural stone as to almost defy
detection except by a close scrutiny.

Within three weeks the entire plant,
which is located along the P. C. & C.
and B. & O. railway tracks, be-
tween Williams and Pine streets, will
be in operation. The artificial stone
department is now being run and
stone to be used in the finishing work
of the company's building is being
made. The plaster department will
not be in running order until the
building is completed.

The stone blocks are made from
Portland cement and sand compressed
into molds and after three days dry-
ing are ready for the builders' use.

The plaster department is much the
most extensive part of the plant. On
the third floor are immense vats or
bins which contain the different in-
gredients which enter into the plas-
ter. These bins are connected on the
second floor by means of pipes. Ar-
ticles which are used in the manufac-
ture of the plaster are hydrated lime,
sand, German fire clay, asbestos fiber,
hair, plaster paris and chemical re-
tardants. The capacity of the plant is
50 tons per day. The manufacture of
plaster is not an experiment, but has
been carried on by several members
of the firm for seven years in Dresden.

The officers of the company are A.
G. Pusey, president; A. A. McNamar,
vice president; Frank J. Mercer, sec-
retary; G. R. Haddock, assistant sec-
retary; C. E. Cochran, treasurer.
These, with Messrs. B. F. McInnall
and Eli Hull constitute the board of
directors. Mr. Haddock will superin-
tend the making of plaster while Mr.

McNamar will have charge of the
manufacture of the artificial stone.
The office will be in charge of Mr.
Mercer and Mr. Cochran will represent
the firm on the road.

The new industry will employ 25
men from the first and having a large
field will undoubtedly grow.

WISH

Expressed on Her Father's Birthday
Fulfilled When Miss Lalor Follow-
ed Him to the Grave.

New York, April 28—"When you die,
father, I want to die, too," said Miss
Mary E. Lalor, to her father, Nicholas
S. Lalor, a wealthy retired contractor,
when they were celebrating the 74th
birthday of Mr. Lalor a few weeks ago,
in the family residence, No. 2116 Wash-
ington avenue, Fordham.

"I should not like to live when you
are gone, my child," was the father's
answer, and two younger children pres-
ent understood the spirit of these birth-
day wishes between the aged man and
his oldest daughter, who had been in-
separable companions all their lives.
She had been his especial comrade and
reliance since the death of her mother
years ago.

He became ill shortly after his birth-
day. She attended him devotedly and
rejoiced when he appeared to improve
and his recovery seemed likely. Yes-
terday morning he died.

Miss Lalor hardly spoke after her
father's death. The blow utterly
crushed her, and an hour after he died
she was found unconscious in her
room, stricken with apoplexy. Before
nightfall, she, too, had died and went
to join the father to whom she was so
devoted.

GIST OF THE GRIST.

An Epitome of Laws Enacted During the Session.

MANY IMPORTANT PROPOSITIONS

New School Code and Election Law Enacted—Spring Elections Abolished—Depository for State Funds Authorized—Brannock Local Option Bill—Governor Vetoes Chisholm Pool Selling Bill and Special Acts.

Columbus, O., (Special).—While the legislature did not enact as many laws by one-half as in previous sessions, the work has been not the less arduous. It is doubtful if a legislature has had to contend with as many important propositions as those that came before the Seventy-sixth general assembly.

The action of the supreme court in declaring unconstitutional special legislation gave the legislature unusual work. It meant the enactment of a school code and an election law. The legislature did not have much trouble in coming to a satisfactory conclusion on the election proposition, but the school code resulted in a long drawn-out fight. With the law to abolish spring elections and the administrative measure imposing a tax of 2 per cent on bequests exceeding \$3,000, and the school and election bills, the legislature faced work that ordinarily would have given a session of twice its length enough to do.

The election law abolishes all election boards in cities with population of more than 100,000, effective May 1, and all election boards in other cities effective July 1. A board of deputy state supervisors of elections will hereafter look after the elections.

The school code gives cities of more than 50,000 population the elastic board, and cities below that figure a small board of three to seven members elected at large. In the large cities boards of education are to be elected as follows: Two to 30 from districts and two to seven at large.

Because of the charitable disposition of the legislature it was necessary to enact revenue laws. The inheritance tax grew out of this. A state depository law was passed which will bring \$50,000 into the treasury, and an excise tax on water transportation companies will add that much more to the state funds.

Governor Herrick has vetoed but nine bills up to date. One of these was the Chisholm bill, which purported to give to driving clubs the right to allow the selling of pools on races. The others were measures for the relief of officials who were liable on their bond, and special election laws. All of these were unconstitutional.

Every bill that passed the house and senate is epitomized below:

Municipal Laws.
Limiting the power to change prices of electricity and gas after such prices are fixed by municipal corporations and accepted.

Authorizing gas companies to manufacture and supply electricity.

Providing for the issue of additional waterworks bonds by the city of Cincinnati. The supreme court has held the first issue valid under the doctrine of vested rights, notwithstanding it is special legislation, and this additional issue is to complete the work.

WEDDINGS.

NORTHON-FORGRAVE.

The Advocate on Tuesday published a special dispatch from Cincinnati, saying that a marriage license had been refused Miss Bessie Forgrave in two Kentucky cities but it now develops that "love found a way," and Miss Forgrave is a happy bride after all. The following letter just received by the Advocate from Cincinnati gives the details of the story:

Cincinnati, April 27.—An event came off here this week which no doubt will be interesting to many of the residents of your city.

It was the elopement of Miss Bessie Forgrave, the daughter of Mr. Robert Forgrave of Newark, with Mr. Percy Sidney Northon, son of Col. Harry Northon, a well to do business man of New Orleans, La. The couple ran away to Kentucky to get married, but were refused a license because of the young lady's youthful appearance. Not to be stopped in their determination to be married the young couple secured a carriage and hastily drove to Newport only to find that the telephone had been quicker, and they were also refused a license there. Determined to succeed in securing a license the couple next drove to Cincinnati where the license was secured. They were then married.

Mr. Northon is not well known in

Ohio, but has a host of staunch friends and admirers in the Crescent City. Miss Forgrave is a popular young lady of Newark. The couple will make their home here until the exposition opens which they will attend. Afterward Mr. Northon will take his bride with him to the sunny south.

As was previously printed in the Advocate there was no necessity for an elopement, as both parties to the contract are of legal age and the bride's mother had consented to the wedding.

REPORT IS CREDITED.

Newark friends so far as known, have received no confirmation of the report of Lulu Lutz' wedding in Kansas City, Kas., but they have no reason to doubt the truth of the paragraph published a few days ago to the effect that she was married on April 19, to Wallace M. Griswold, of Springfield, by Judge Truman in Kansas City. Miss Lutz left Newark not long ago for the west and when Chief James Sheridan went to St. Louis recently on business he accidentally met her on the street in that city.

STANTON-SNYDER.

Somerset, O., April 28.—Leo Arthur Stanton of Buffalo, N. Y., and Miss Mary B. Snyder, this city, were married here last night by Father Stanton of Springfield, Ky., brother of the groom.

CLAY CITY WEDDINGS.

Hugh C. Longley and Mary C. Wilson, Ray Ashton and Miss Anna Marshall.

Russia embraces one-sixth of the land surface of the world. It is more than fifty times larger than Japan, and has a total area of 8,650,000 square miles. Half of Europe and the whole of Northern Asia are included within its boundaries. It has a greater continuous area than any other nation in the world.

The language of the Republic of Haiti is French, while the language of the Republic of Santo Domingo, on the Island of Haiti, is Spanish.

The Patent Office at Washington during 1903 granted 31,690 patents. The net balance to the credit of this office since it was founded in 1836 is \$1,682,544.

SHAW

(Continued from Page One.)

paroled. "Dave" is one of the best fellows I met in Washington, and I want to beseech you in his behalf to parole this man if you possibly can. Of course, I do not know the details, but "Dave" was so kind and helpful to me in Washington that I am very anxious that he should be gratified provided, of course, it will not be too great an injustice to the public.

"N. M. HUBBARD."

The trial Judge and County Attorney opposed the parole, but the most remarkable feature of the proceeding consists of a document in the handwriting of Tom Denison, the "Car of the Third Ward," in Omaha, which was submitted to Governor Cummins by Homer Norris, Sheriff's brother, and which was also filed with the Logan County Grand Jury that recently indicted Denison as an accomplice of Sheriff. Denison in this document, sets forth the amounts that he paid out in obtaining Sheriff's parole. Entries include money expended for various kinds of services to C. G. Hipwell, State Senator from Davenport; H. G. McMillan, publisher of the Cedar Rapids Republican, Chairman of the State Central Committee and United States Attorney; J. N. Baldwin, of Council Bluffs, Chief Counsel for the Union Pacific Railroad, twice Chairman of the Republican State Convention and delegate at large to the National Convention, and I. S. Rhythe, of Mason City, relative of J. W. Blythe, the General Counsel of the Burlington Railway. Two or three other names were mentioned and one item is \$336 for "running repeaters across the river" to vote in Council Bluffs in support of the anti-Cummins nominee and in favor of the Gear man for the State Legislature. It was then that Cummins was running for the United States Senate against Gear. Hazelton was the Gear candidate in Council Bluffs and Saunders, the present Senator from that district, was the Cummins candidate.

The records left by Governor Shaw fail to show that McMillan or Rhythe took any part in the efforts to obtain a parole. Baldwin and Hubbard were the influential factors and Hazelton's name also in on record as having in-

terested himself in the case. But in Nebraska, Sheriff's workers were legion. Martin White, Chief of Police; Maver Moore and Victor Rosewater, publisher of the Bee, all of Omaha, and J. R. Clancey, Police Clerk, and subsequently private secretary to the Governor, were particularly active, and Congressman Mercer is shown to have accomplished more than all the remainder combined. Sheriff was paroled, but quarreled with Denison and a pawnbroker over the division of the spoils and was again captured as the result of a hold-up in Missouri after Cummins became Governor. His parole was revoked and then he sneaked on Denison and the rest.

GRANVILLE NOTES

Granville, O., April 28.—The Sunday school class of Mr. Guy Crippin gave a very enjoyable social in the parlors of the church on Wednesday evening. Ice cream and cake were served and a very pleasant time was had by all.

On Wednesday evening Miss Harriet Barker, Dear of Shepardson college, entertained in a most charming manner the members of the Y. W. C. A. and the Y. M. C. A. cabinets.

The members of the faculty of Shepardson college consider themselves fortunate in having secured as vocal teacher during the absence of Miss Blinn, who goes abroad. Miss Scofield of Columbus, who is thoroughly educated in this line, has a most pleasing voice and who will also have charge of choir teaching.

Paul Barnes, son of Dr. Barnes, who has been attending school at O. M. U. is visiting his parents here.

In future the police of Zurich, Switzerland, are to receive lessons in "civility and deportment," so as to bear themselves on all occasions with "dignity and grace." The lessons in civility are to be given by the chief himself.

Expensive Foolery.

"That man Taylor would do anything to fool his wife."

"Indeed?"

"Yes. Why one night he walked the streets until 1 o'clock in the morning just to make her believe he had been carousing at the club. And it was raining torrents all the time."—Cleveland Plain Dealer.
